OUR DIRECTOR

Mr. Steven Molefe

The challenges faced by the property and construction sector in the 21st century resulted in the need for spaces that will be able to cope with rapid growth urbanisation. This will require infrastructure and buildings that will be developed much faster and flexible to adapt to the ever changing requirements.

We are living in the information age, where technology is a necessary tool for quantity surveyors to be able to adequately address the socio-economic challenges in infrastructure development

Mr Molefe has acquired the skills and expertise in both private and public sector, with over 20 years as a practising quantity surveyor. He has the ability to build solid relationships, as well as meeting and exceeding clients needs, this sets him apart as industry expert,

He has completed over billion rand worth of projects and infrastructure ranging from retail, office space, health care, education and government facilities

With his dedication on providing service excellence, value for money as well as investment in cutting edge technology, he is well positioned to lead lesedi quantity surveyors in providing cost effective engineering solutions for future challenges.
